

Dimensions:

4.25" x 1" x 1"

Switch Contact Rating:

30 VDC max. switching voltage

250 mA max. switching current

.25 Watts max. power rating

Ambient Temperature Range:

-40° C to + 80° C (-40° f to 176° F)

Optional Accessory:

(L) Bracket-HSC Mounting

Stock Number:2020355

 **WARNING**

Each electrical rating is an individual maximum and must not be exceeded.

The Model HSC is a High Security Contact Switch to monitor the open or closed position of safe and vault doors. The switch includes design features, which makes it highly defeat resistant in critical environments.

Features

- Tested to 9th edition UL 634 Level 1 high security (both in-swing and out-swing doors)
- Single and Dual alarm contacts
- NO adjustment required for installation
- NO brackets needed for most out-swing door installations
- Solid color-coded lead wires
- Integrated removal/pry tamper (no back plates)
- Low profile
- Two hole mounting
- Low cost
- Made in America
